

## Furniture Maintenance

During the development stage of fabricating each of Hawk's furniture ranges, great consideration has been made in reducing the maintenance aspect of products and therefore only the finest materials and finishes have been chosen. All standard Hawk products are covered by our 10 year fair wear and tear warranty unless otherwise stated.

It is advised that regular checks and maintenance are carried out on a regular basis to ensure a clean and safe working environment. The following procedure has been created in order to prolong the longevity of your furniture.

MFC is the most practical and low maintenance material for use in an office environment, offering the following benefits:

- Scratch resistant
- Resistant to household cleaning products and chemicals
- Resistant to cigarette burns
- Colour-fastness under artificial light
- Resistant to cracking
- Impact resistance
- Abrasion resistant
- Ease of maintenance
- Hygienic surface

With this in mind, MFC only needs to be dusted down and wiped clean with luke-warm soapy water; alternatively a furniture polish such as Pledge/Mr Sheen can be used. No waxing, de-waxing or polishing of any surface is needed.

Metalwork is polyester-resin powder-coated and resistant to minor scratching, chipping, abrasions, cracking, and daily wear and tear and therefore only requires regular dusting and occasionally washing down with luke-warm soapy water if required. No strong detergents are required. Other materials used are chrome, zinc and nickel-plated with the same maintenance requirements as the powder-coated metals.

## Cleaning

Weekly wipe down of surfaces with a cloth and/or warm soapy water.

## Structural

Furniture should be inspected on a monthly basis for loose fixings (screws/bolts/cam/pins/handles etc) and tighten if required. Further checks to defaults in moving components such as hinges, runners, castors, locks, tambour doors etc. should also be carried out monthly.

Should you require further assistance regarding the maintenance of your furniture please consult your supplier/dealer or alternatively contact Hawk using the below information.
